

# KUEBIX HAS YOUR Truckload Needs Covered

Finding the right truck at the right price has always been a challenge...until now!

Kuebix, a Trimble Company has built the largest connected shipping platform in North America. Kuebix offers our shipping members unprecedented access to a vast ecosystem of carriers and intermediaries including asset carriers, private fleets, truckload brokers, freight forwarders, and digital freight matching services.

Stop spending countless hours navigating various systems, sending emails, making phone calls, and researching multiple websites to find a truck. Kuebix has a one-stop solution for ALL your truckload moves. Simply post your load to Kuebix Community Load Match to connect to our vast carrier network, or contact the Kuebix team to help with RFP and other truckload needs. The best part - with Kuebix you can manage all your truckload moves (spot and negotiated) on the same platform where you manage your LTL and parcel shipments.

**One platform. Every shipping need. Kuebix has you covered.**

## WITH KUEBIX COMMUNITY LOAD MATCH

- *Manage spot volume*
- *Build your bench of carriers*
- *Improve pricing*

### Truckload solution for shippers with regular shipping lanes

Kuebix provides complimentary truckload rate assessments leveraging the Community Load Match platform to help companies determine whether they are making the most strategic truckload shipping decisions. The assessment gives shippers insight into whether they can save money on recurring or spot freight by leveraging Kuebix's vast network of truckload assets. Kuebix can also help shippers conduct formal RFPs to source negotiated rates with truckload carriers on the Kuebix platform.

### One time load coverage for occasional truckload shipments

Shippers can use Kuebix Community Load Match to quickly and easily receive spot bids from Kuebix's vast carrier network to compare and book side-by-side with their negotiated rates. This service is free to use and helps shippers expand their booking options to always get the best rate and service type for their needs.
